From the Editor's Desk

In 2019, the Indian Union government stated that 6.7% of its population lived below its official poverty limit. The second edition of the Multidimensional Poverty Index (MPI) released by NITI Aayog, showed that approximately 14.96% of India's population was considered to be in a state of multidimensional poverty. With a population of 1.4 billion people, such statistics imply that India has millions suffering the deprivations of poverty, a major repercussion of which is the lack of adequate access to quality medical treatment. The condition is worse in rural India with poverty rates being higher there than in urban areas. The government has been proactive in dealing with this problem; in 2018, the Ayushman Bharat Pradhan Mantri Jan Aarogya Yojana was launched which is the world's largest health insurance scheme launched and fully financed by the government. Despite great advances having been made in the past few years, the health and social challenges faced by people living in remote villages of India are still rampant. Leave aside elective surgical services, even emergency services are not available in many remote locations in India. This is because educated medical professionals prefer working in cities to avail a higher quality of life for themselves and their families. Rural postings, mandated by the government, are temporary and usually reserved for junior doctors who lack experience.

In 2009 a group of professionals, in an effort to give back to society, initiated the concept of conducting surgical ventures in such locations. The Project was initiated in a village called Shillai in Himachal Pradesh where utero vaginal prolapse was rampant. This work was presented in a paper published in the Journal of Midlife Health "Reaching the Unreached: Mobile Surgical Campus in remote villages of Himachal Pradesh" where in the demography & surgical interventions in these patients were studied in detail and regular work in hilly terrains was initiated on a larger scale.

A unique model of raising funds from family, friends and CSR was combined with recruiting experienced doctors from the city who offered their services as volunteers and with the help of community participation, surgeries were conducted in the village hospitals at low costs. Okti identified village medical centres that had the infrastructure needed to perform specialized surgery and organized surgical camps with the support of local community authorities.

Under this model, specialized surgical services were brought to the doorstep of the rural poor who could not afford to travel to cities for treatment. Surgeries were performed at heavily subsidized rates, the only cost charged being that for medicine and boarding and that too was sponsored. This meant that people who had been suffering for years to prevent their families from going into debt in order to cover their surgical costs were finally able to get the medical attention they needed. Okti largely focused on performing gynaecological procedures; women being lower in priority for receiving medical help compared to the male members in rural households. Patients with genital prolapse either do not report or report late to the clinician due to social stigmata and myths considering and accepting it to be secondary to ageing. Women residing in remote villages of India suffer from the complications of genital prolapse due to lack of awareness, resources and fear of surgery. Project Prolapse ended their spell of social ostracization and neglect, bringing back their quality of life. The entire expenditure on surgery and food is borne by the organization. Not only did Okti bring medical relief to the unreached in India, but also enabled skill development and capacity building on the village level to create a more sustainable model of aid. Village-level workers were trained in performing life-saving procedures, and incorporated into Okti's network of providing aid. They were also trained to identify more serious cases that needed treatment in the cities, in which case Okti brought them to Delhi and bore the cost of their treatment.

Till date, the surgical team under Okti Foundation has helped more than 5800 beneficiaries in 117 camps in remote villages of India in a self-sustaining model. The free mobile surgical camps under Project Prolapse in remote villages of India provided definitive treatment to these women. Health education, care of postmenopausal women, approaching trained birth attendants for delivery, delayed resumption to work in the postpartum period, and healthy dietary habits may decrease the burden of women suffering from genital prolapse.

Okti foundation
In service of Community

From the Director's Desk

The genesis of our foundation traces back to a series of probing questions that resonated deeply within us:

- Can individuals lacking financial means access quality medical care?
- Considering the abundance we receive from others, how can we reciprocate and share?
- As bearers of a divine essence, each plagued by our own trials and tribulations, how can we bridge the profound divides within our society? These divides encompass gender, socioeconomic status, education levels, and more.

These inquiries, lingering in the depths of our souls, impelled us to extend our hands within our respective spheres of influence. This sentiment parallels the South African concept of Ubuntu, encapsulating the interconnectedness of all individuals within our societal fabric. Just as the doctor requires the services of the milkman, the banker, the IT specialist, the plumber, and the carpenter, so too do these professionals rely on the doctor's expertise. Acknowledging the limitations of our individual capacities, we endeavoured to address pressing issues within our reach.

Dr. Sonal's compassionate heart yearned to assist women afflicted by treatable gynaecological conditions, ensnared in a web of poverty, gender biases, abandonment, and ageing. Simultaneously, Dr Varghese aspired to provide affordable surgeries to marginalized individuals engaged in arduous manual labour, such as road workers. Thus, with the support of like-minded individuals in our community possessing both financial resources and compassionate spirits, the OKTI Foundation was conceived.

Over the span of 18 years since our inception, numerous others have contributed whatever aid they could offer, including counselling, elderly home care, health education, awareness initiatives, improved accessibility for girls and women, assistance for victims of pain and abuse, and academic opportunities aimed at enhancing surgical skills. We have consistently conducted complimentary surgical camps in underserved areas, a tradition that endures to this day.

Throughout this journey, some of our aspirations have materialized into tangible achievements. Our interconnectedness has begun to erode the unnecessary barriers that once divided us, albeit in modest ways. Light is penetrating the shadows that once enveloped our world. It is said that many drops make an ocean, and thus, we persist in our endeavours with unwavering hope.

We extend an invitation for you to contribute in any capacity you can to OKTI—whether through your talents, time, space, ideas, or financial resources. Every contribution, regardless of its form, is invaluable, for together, we can achieve feats that would have been inconceivable alone. Let us envision a future, five years hence, where our collective efforts have propelled us toward unprecedented achievements.

Dr Sheila Varghese
Director, Sayahak Surgical Camp
Manali, Himachal Pradesh

JANUARY 2022 TO DECEMBER 2022

SURGICAL VENTURE

Okti Foundation, Delhi in collaboration with Sant Parmanand Hospital has organized 118 Surgical Camps till date in which 5853 surgeries have been conducted for the underprivileged in society in different locations. In the year 2023, 7 Surgical ventures were organized in which 135 surgeries were conducted. The dedicated team of professionals involved were Dr George Verghese, Dr Shiela Verghese, Dr T C Sharma, Dr Sonal Bathla, Dr Naresh Singla, Dr Uttam Mahapatra, Dr Narjeet Kaur, Dr Josy, Dr Shailesh, Dr Prabhu Das, Dr Prabhu, Dr Mandeep, Dr Novin, Mr Dilip Singh, Mr Harish, Ms Somlata, Ms Dolma Phuntsog & Ms Raksha who supported the cause with their voluntary services.

SURGICAL CAMP CUM LIVE OPERATIVE WORKSHOP AT SANT PARMANAND HOSPITAL IN JANUARY 2023

Eight Poor patients were financially supported in surgeries conducted at Sant Parmanand Hospital, Delhi in Live Operative Workshop by faculty from SOVSI. This event was financially supported by United Drilling Tools Pvt. Ltd., & was attended by more than 150 gynaecologists, who were trained in vaginal surgery. The operating faculty included Dr P.C Mohapatra, Dr Hara Pattanaik, Dr R.K Purohit, Dr Ashish Kubde, Dr Uma Rani Swain, Dr Pawan Bhasin and Dr Sonal Bathla.

SNO	NAME	AGE	DIAGNOSIS	SURGERY
1	BABITA	39	P2 L2 with cervical elongation 3° UV descent	NDVH with B/L Salpingectomy
2	PREM LATA	49	multiple small fibroid uterus with polymenorrhagia with left ovarian cyst.	NDVH with B/L Salpingo-oophorectomy
3	ANJU	39	Post hysterectomy with Large Vault Prolapse	Sacrospinous fixation with Perineorraphy
4	SHILPA JAIN	35	Nullipara, Obesity with Dysfunctional uterine bleeding	NDVH with B/L Conservation of ovaries
5	INDIRA	60	P2 L2 with Intra vaginal elongation of Cervix PVR+ve	VH with HUS with Cystoscopy with Urethral Dilatation
6	MUNNI	50	P2 L2 with post hysterectomy Vault Prolapse	Sacrospinous fixation with Extended Perineorrhaphy
7	USHA	47	P2 L2 with Large Fibroid Uterus 9cm	NDVH with B/L Salpingectomy
8	Divya Ahuja	48	Fibroid uterus with B/L ovarian cyst with endometrial hyperplasia	NDVH with BSO

CHRISTAN HOSPITAL, KACHWA, VARANASI

9th to 12th FEBRUARY 2023

A Surgical Venture was organized at Christan Hospital Kachwa Varanasi from 9th to 12th Feb'2023. Surgeries for 20 poor patients were conducted with financial assistance from Pitam Chand Charitable Trust. Mr Shankar, Dr George Verghese, Dr Shweta, Mr Harish, Ms Somlata, and Ms Dolma contributed their services to the Camp.

S.No	Name	Age	Diagnosis	Surgery
1	Shanti Gupta	65	Utero Vaginal Prolapse	Vaginal Hysterectomy with PFR
2	Sharda	60	Utero Vaginal Prolapse	Vaginal Hysterectomy with PFR
3	Kabutra Devi	50	Utero Vaginal Prolapse	Vaginal Hysterectomy with PFR

SURGICAL CAMP

SANT PARMANAND HOSPITAL in December 2023

A Surgical Venture was organized at Sant Parmanand Hospital, Civil Lines in Dec 2023, Surgeries of 11 poor patients were conducted by Dr Sonal Bathla, Dr Shalu Jain, Dr T C Sharma and Dr Sunil Gupta and team. The funds were raised by family and friends.

SNO	NAME	AGE	DIAGNOSIS	SURGERY
1	Gita	34	Term pregnancy with fetal distress	LSCS
2	Seema Nishad	25	Term pregnancy	NVD
3	Saroj Bajpai	49	Acute Cholecystitis with Choletasis	Lap Cholecystectomy
4	Chenga Lhamo	47	Adenomyosis with Menometrorrhagia	NDVH
5	Sneha	18	Short Cervix	Mc Donald stitch
6	Gulista Begum	49	Fibroid uterus with Menorrhagia	NDVH
7	Lalita Devi	45	Adenomyosis with Menorrhagia	NDVH
8	Leela Devi	33	Paraurethral Cyst	Cystectomy
9	Sandhya Rani Behera	41	Left ovarian Cyst	Op. Laparoscopy with Left salpingo oophorectomy
10	Ruby Devi	31	Term pregnancy with MSL	LSCS
11	Anish	15	Right Simple Nephrectomy	Right open simple Nephrectomy

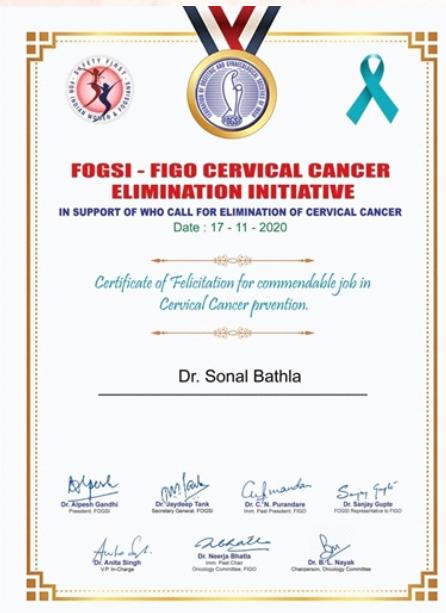

Awards Won by Okti Foundation...

Felicitation by DMA, 8th March 2021

Dr Sonal Bathla was felicitated at DMA Bhawan on 8th March 2021 on behalf of Okti Foundation for the social services rendered to the population at large by the team.

An appreciation from FOGSI –FIGO was also received in the year 2020 for the active participation of the organization in the dissemination of awareness, execution of screening and vaccination against Cervical Cancer in remote locations in India.

"Compassion Extra Ordinaire" by Sh J P Nadda, honourable Health Minister of India and FOGSI President Dr Jaideep Malhotra for the surgical services and capacity building at remote villages pan India by the dedicated Team of Doctors in 2018.

The Okti Foundation Surgical Team represented by Dr George Verghese (Surgeon), Dr Vinod Kalla (Anaesthetist), Dr T.C Sharma (Urologist), Dr Sonal Bathla (Gynaecologist) was nominated for the "Best Surgical Team "Award in South East Asia BMJ Awards in 2018 amongst nine countries and 1595 entries for contribution towards the Surgical Services and Capacity Building in Rural India.

"Woman of the Year Award - 2019" by "Delhi Gynaecologist Forum" and 'Wow India' to Dr Sonal Bathla in 2019 in Delhi for her contributions to the health Sector in India.

FOGSI Dr Duru Shah Community Service Award 2020 was conferred upon Okti Foundation at AICOG Indore in 2022.

Felicitations by Delhi Chapter IMS, FOGSI Midlife and Education Committee in Delhi towards services to women in remote locations and work for Menopausal Health in 2019.

ACKNOWLEDGEMENTS

The Okti Foundation acknowledges the contributions of all the doctors, paramedical staff and community workers for their voluntary services for the cause of humanity. The Financial contributions made by various organizations and individuals, exempted under 12A and 80G, are highly appreciated. The awards conferred upon the organization by various organizations and institutions not only boosted the morale of each and every member of the organization but also enhanced the credibility to the authentic work. It has encouraged many more people to associate themselves to this humanitarian work. The financial contributions from the following donors are highly appreciated.
